

Smokehouse Release Screens

for All Jerky Processing Applications.

Hi-Performance Products offers a wide variety of specialty screening materials that were specially formulated for use in the Jerky Processing Industry, to eliminate jerky products from sticking to stainless steel racks.

Teflon Coated Fiberglass
 (500°F Service Temp)

Polyethylene Screen
 (200°F service Temp)

Polypropylene Screen
 (220°F Service Temp)

USDA-Approved Teflon Coated Fiberglass: Smokehouse non-stick screens that offer superior release, flexibility, dimensional stability and thermal resistance. Sealed edges included.

Part Number	Mesh Size	Screen Size	Color
TJS-316	3/16"	Custom	Tan
TJS-140	1/4"	Custom	Tan
TJS-516	5/16"	Custom	Tan

FDA-Approved HD Polyethylene: Smokehouse non-stick screens made from High Density Polyethylene Resin that offers a softer, more flexible plastic screen product.

Part Number	Mesh Size	Size	Sun Yellow	Clear	Yellow	Black
PJS-12HDPE	1/2"	Custom	Royal Blue	Aqua	Green	Sky Blue
			Lilac	Wild berry	Raspberry	Pink
			Orange	Mauve	Dark Red	Peach

Custom colors available. Please specify color from color chart.

FDA-Approved Polypropylene: Polypropylene resin that offers enhanced non-stick properties and the ability to withstand higher temperatures than our Polyethylene Smokehouse Netting.

Part Number	Mesh Size	Size	Sun Yellow	Clear	Yellow	Black
PJS-12HDPP	1/2"	Custom	Royal Blue	Aqua	Green	Sky Blue
			Lilac	Wild berry	Raspberry	Pink
			Orange	Mauve	Dark Red	Peach
